

"Fake"book Page Project

The purpose of the project is to create a "Fake"book page on a historical mathematician. You or you and a partner will choose one of the mathematicians from our series on The History of Maths and complete the below requirements. You may need to complete some outside research about your mathematician at home or on your own time. Use this sheet to complete your research before you begin constructing the page and finding pictures.

Create a "Fake"book page for a historical mathematician using the following guidelines:

-
- Name of mathematician at the top of the page
- 1 Profile Picture of your mathematician
- Interests

Contact Information: (You may need to make this up!)

Information Corner/Basic Information

- Birthday
- Religion
- Hometown
- Relationship Status
- Family
- Education

- Address
- Phone Number
- Email Address

Photos (4)

Resources (minimum of 2)*

Friends Corner:

- 6 pictures of people that are/would be friends with your mathematician

The Wall/Status Updates

- Write 6 significant facts/updates on The Wall. These facts/updates need to highlight important events within your mathematician's life. Each comment must be about a separate event and include the date. The comment can be from your mathematician or from someone associated with him/her.

Personal Information: (At least 2 of each)

- Activities
